

CLEAN Tower 75

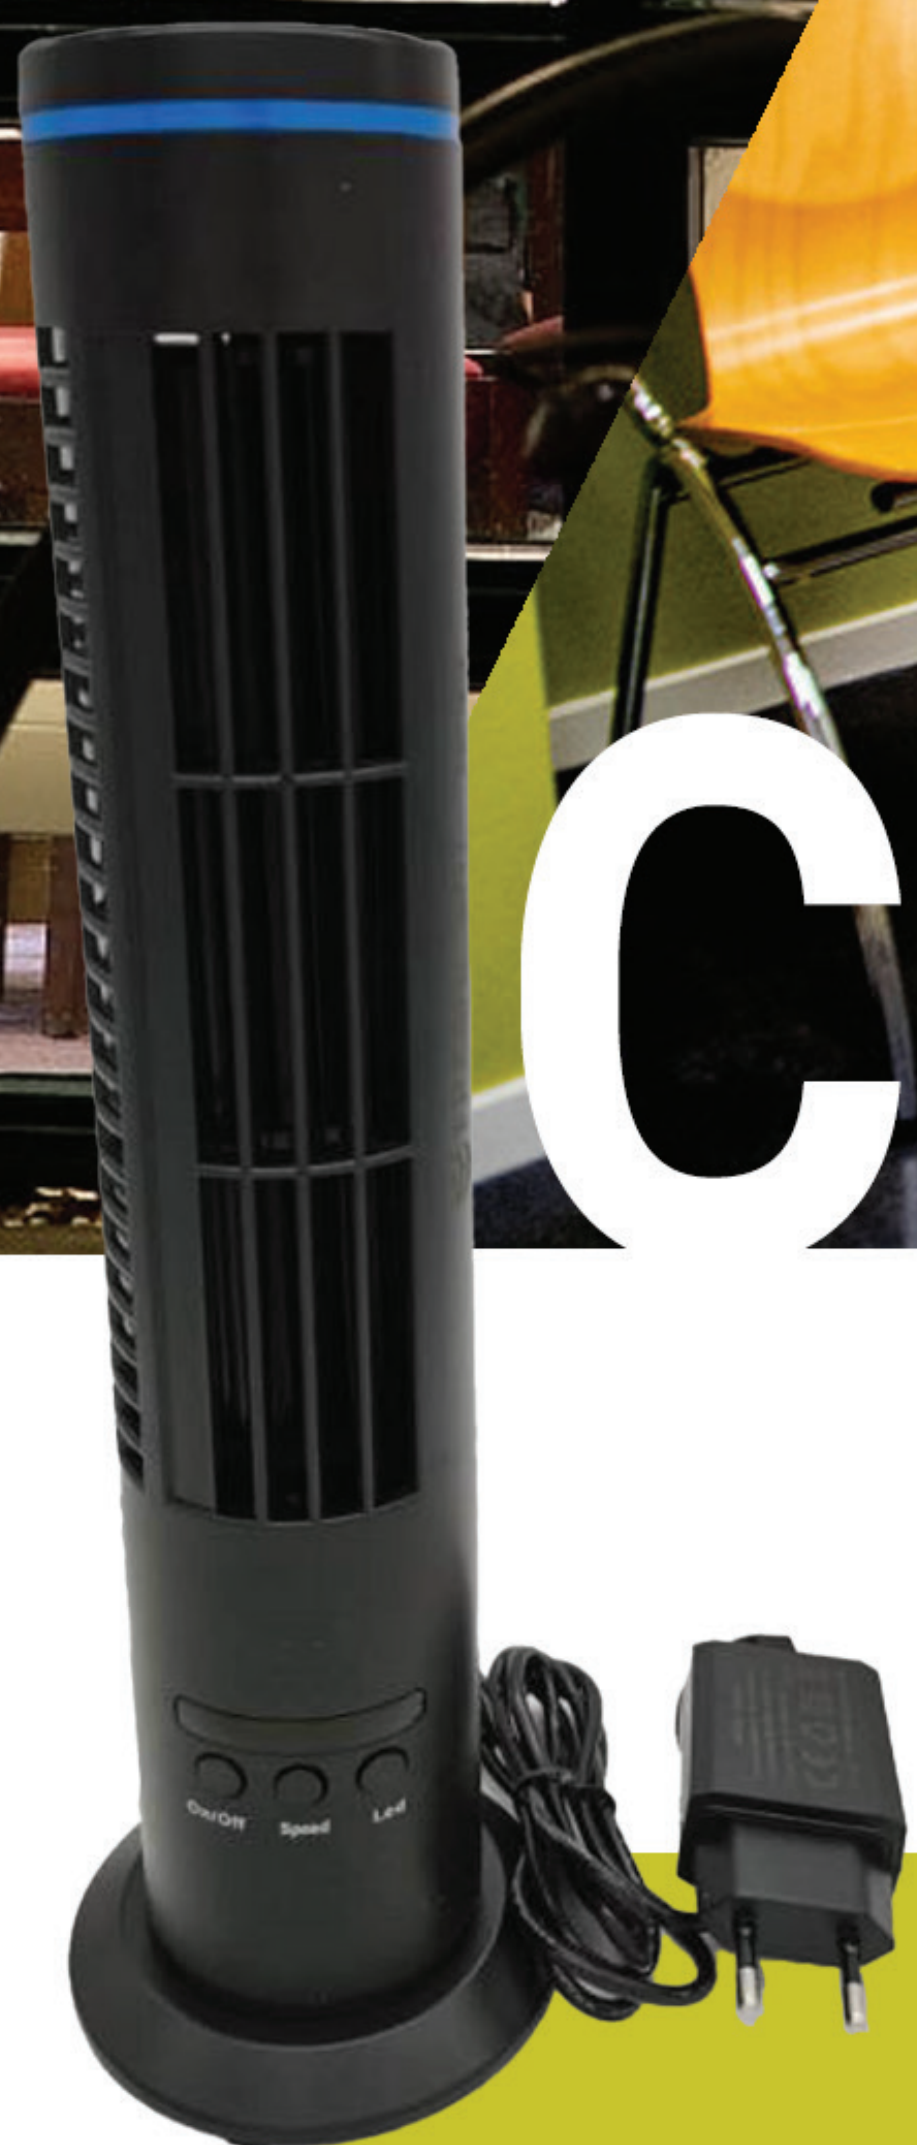

CLEAN TOWER 75: CLEAN AIR IN EVERY INTERIOR

Fine dust, dust, bacteria, viruses, fungi immediately eliminated thanks to this compact ionizer.

The indoor climate has a major impact on people's health. Especially in the current corona era with highly infected aerosols - viruses and bacteria in the air - a good air climate is of great importance. The Medtrading Clean Tower 75 from is a mobile compact ionizer with sufficient capacity for a space of 75 m², which purifies the air in the office, nursery, care institution, school, or at your home within an hour.

The innovative Clean Tower 75 is an energy-efficient fan that you can easily place on your desk. Everyone immediately notices the improvement in air quality. The Clean Tower 75 consumes very little energy and makes traditional air purification systems and expensive filters completely unnecessary.

CLEAN TOWER 75 IS A MOBILE AND COMPACT IONIZER THAT OPTIMALY PURIFIES THE AIR

CLEAN TOWER 75 BENEFITS FOR YOU

- 1 - Greatly improved air quality
- 2 - No dust, fine dust, VOC * and pathogens in the interior
- 3 - Healthier and more productive Staff members
- 4 - Guests who feel healthier and feel more comfortable
- 5 - Savings on traditional air purification
- 6 - Low energy costs
- 7 - Silent, safe, unobtrusive system
- 8 - Easy to place on desk or table

* Volatile organic compounds: easily evaporating, often harmful substances

WHAT IS IONIZATION?

Ionization is a physical phenomenon. Ionization changes the electrical charge of a dust particle. As a result, the dust particles bind to water molecules in the air. They become heavy and fall, with dust, particulate matter, pathogens and all, to the ground. Medtrading has been a pioneer - in the Netherlands and worldwide - in the practical application of ventilation for years.

Many organizations are now opting for Medtrading's ionization solutions.

Pure daylight and a clean indoor climate lead to better health, more well-being, higher production and less disease. default.

EFFICIENTY

Particel fraction 0,3 - 7 µm	99,94%
Fungal spores < 100 µm	97%
Bacteria < 100 µm	98%

CLEAN TOWER 75 PRINCIPLE

SPECIFICATIONS

Voltage	12V
Capacity	75 m ²
Consumption	3 Watt
Dimensions	ø60 x 235mm
Warranty	1 year
Ventilation	3 settings
Ionization	> 500 milion/sec

The Clean Tower 75 is a powerful, efficient air ionizer fan. Great for use in nurseries, laundry rooms, bathrooms, kitchens, offices and bedrooms. The Clean Tower 75 eliminates unpleasant smells and odors from litter boxes, pets, bedrooms, as well as cigarette smoke.

The Clean Tower 75 produces > 500 million negatively charged ions per second, removing dust and pollen in the air while eradicating harmful viruses, flu, pathogens, bacteria, fungi and mildew. The Clean Tower 75 helps people to breathe more easily, which reduces respiratory complaints
